Scope. This Symposium will be held at the Computer Science Department of the University of Pisa, Italy, on June 18–20, 2008. Papers in all areas related to combinatorial pattern matching and its applications will be considered, e.g.

- coding and data compression
- computational biology
- data mining
- information retrieval
- natural language processing
- pattern recognition
- string algorithms
- string processing in databases
- symbolic computing
- text searching

Submissions. Both papers reporting on original research unpublished elsewhere and surveys of important results are welcome.

Important Dates

Submission	Jan 14, 2008
Notification	Mar 7, 2008
Camera-ready	Mar 28, 2008

Proceedings. The proceedings will be published in the Springer-Verlag series, Lecture Notes in Computer Science. The Annual Symposium on Combinatorial Pattern Matching started in 1990, and has since taken place every year. Proceedings of previous CPM conferences were published as LNCS volumes 644, 684, 807, 937, 1075, 1264, 1448, 1645, 1848, 2089, 2373, 2676, 3109, 3537, 4009 and 4580.
