## Information Retrieval

- Teacher:
  - Paolo Ferragina
  - paolo.ferragina@unipi.it
- **Semester**: First semester
- Pre-requisites: Basics of Algorithms, Algorithm Engineering or Algorithms 2
- Exam mode: written (probably a tiny project on python+Lucene+...)
- Area: Algorithmics

## Syllabus

- The main modules of a (Web) Search Engine
  - Crawling
  - Compressed storage
  - Indexing
  - Ranking
  - Query resolution
  - Clustering, classification, recommendation, text annotation, ...
- Advanced algorithms and data structures to manage big data:
  - (structured and unstructured) Texts
  - (labeled and unlabeled) Graphs
- Probably, an experience module on Lucene, TagME, ... (in python)

## Thesis available TAG ME
